

DryJect Aerate, Amend, Play in 1 Hour

1 Hour Challenge

Goal: Aerate green, inject 1 ton of sand and have open for play in one hour.

7:00am Green ready for **DryJecting**.

7:15am **DryJecting** under way.
One staffer helps to keep hopper filled.
DryJect injects 35lbs of sand per minute.

7:35am Little surface disruption!
DryJect is effectively fracturing & shattering soil profile beneath.

7:45am 4 passes to go, goal is in reach.
1,600lbs of sand already injected! **DryJect** relieves compaction while amending.

7:55am Once over with the matt.

8:00am **Success!** Green is open for play
& putting surface remains very smooth.
